Miscellaneous Notes

Each boarding department provides bedding for your pet. We also offer dry food at no additional cost. If your pet is on a prescription diet*, eats wet food** or eats a variety of food that we do not offer, you are encouraged to bring this at the time of drop off, as we may not have it on hand. We recommend bringing enough food for your pet's stay, plus a bit extra in case the stay needs to be extended. As storage space is limited, please limit the amount of food you bring to an amount that will be used during the stay (plus a few days extra).

Each pet may also bring up to three (3) personal belongings for their stay (toys or bedding) in addition to any food, treats or medication. We do not accept stuffed dog beds, as we are unable to launder them.

The complimentary dry food offered in the Kennel, Little Paws Loft and Cat Tail Inn is Hill's Science Diet Sensitive Stomach & Skin Formula. We sell Science Diet Sensitive Stomach & Skin wet food for dogs and cats if you wish to purchase that here, but if your dog or cat prefers another brand, the pet owner would need to supply said food.

*Some prescription diets are available for purchase at Muddy Creek. If your pet is not a Muddy Creek veterinary client, we would require a prescription from your regular vet if it is a variety that we carry. Please call to inquire if you wish to purchase prescription food to ensure that we have it in stock.

Pet owners will fill out a Registration Form with feeding, medication and other instructions on the day of drop off or a week prior over the phone as well as a Consent to treat form in case your pet requires medical attention during its stay. Pet owners are required to leave a valid emergency contact number (you may leave several if you like). The emergency contact(s) must be over the age of 18, within the continental United States, reachable by telephone and authorized to make decisions for your pet during its stay. We do not accept e-mail addresses or your pet's veterinarian as a form of emergency contact. If you plan on leaving a number of a person who is not the pet owner, please advise your emergency contact person that you are leaving their contact information regarding decisions for your pet.

Medication Administration:

All of our Animal Care Attendants are trained to administer oral and topical medications. Pet owners must provide all medications to be administered. A medication administration fee applies to any medications (including vitamins and supplements) administered during boarding. The fee is per pet, \$4.30 for once a day administration or \$7.50 for two or more times per day administration. Please see below if you have a diabetic pet.

If your pet will be taking medication while he/she is boarding, the medication must be in its original labeled bottle separate from any food or other medications (i.e. each medication labeled in its own separate bottle) and we will need to know the name of all medications as well as specific instructions on how to administer said medications. If you give your pet's medication in a food or treat, please bring these as well. If your pet's medication is a controlled substance, we are required to count out the medication at check in and have pet owners count the medication to verify quantity. For controlled substances, we will only take the amount necessary for your pet's stay plus a few days extra in case the stay needs to be extended, as Animal Care Attendants must count the medication before and after administering each time the medication is administered.

If your pet requires subcutaneous fluid administration, pet owners are required to provide the fluids, setup and needles. The fee for subcutaneous fluid administration is **\$20.00 per administration**.

Diabetic Pet Boarding:

All of our Animal Care Attendants are trained to administer insulin injections. In order to monitor the food and water intake as well as bathroom habits, diabetic pets must board separately from their siblings. If your animal is on a prescription diet or a specific brand of food, please bring this with you for boarding. Pet owners must provide insulin and syringes. Please bring enough for your pet's stay plus a few days extra in case the stay needs to be extended.

The fee for insulin injections is **\$8.00 per injection**. Our feeding/injection schedule for diabetic pets is typically to feed at 7:00 am and 7:00 pm, then give their insulin injections at 7:30 am and 7:30 pm.

Flea and Tick Checks:

Flea and tick checks are performed on every animal boarding at Muddy Creek. The Cat Tail Inn performs flea checks as part of the check-in process. The Kennel and Little Paws Loft perform them as part of their daily body check routine. If you are dropping off a cat for boarding, please do not remove your cat from its carrier until the Animal Care Attendant has done this check.

If any live fleas or evidence of fleas are found on your pet either at check in or during their stay here, the Animal Care Attendant is required to treat your pet. Every pet with fleas or evidence of fleas will be given topical or oral flea and tick preventative to kill any live fleas on your pet. Pet owners will be responsible for the cost of each flea and tick preventative given, and will be subject to a Medication Administration Fee (\$5 for once a day medication administration).
