

Muddy Creek Animal Care Center

Thank you for choosing Muddy Creek Animal Care Center to care for your pet while you are away! Below is some helpful information regarding our requirements for boarding, as well as services that may be provided while your pet is staying with us.

Requirements for Boarding

All pets boarding at Muddy Creek must be up to date on and provide proof of required vaccinations in order to board. If a vaccination is not current, said vaccine must be administered a minimum of five (5) days prior to boarding. If your pet is not up to date on all of the required vaccinations, your pet will not be allowed to board.

We do not accept unneutered adult male cats or rabbits, Feline Leukemia positive cats, any pets who have ringworm, or any pet who has recently tested positive for internal/external parasites.

Boarder Entry Exam

\$75.00

If your pet does not come here for regular medical care, they will need to have an exam with one of our veterinarians prior to boarding. This helps our doctors familiarize themselves with your pet, gain direct information about any health issues, and to make sure your pet is healthy enough to handle the possible stress of boarding.

Drop-Off & Pick-Up Hours are by appointment only and are scheduled between the hours below

Monday – Friday:	8:00 AM – 11:00 AM	or	3:00 PM – 6:00 PM
Saturday/Sunday:	8:00 AM – 11:00 AM	or	1:00 PM – 2:00 PM

Please allow time at drop-off to complete all the necessary paperwork for your pet's boarding stay. Some of these forms can be found on our website for you to pre-fill out, but we will still need to review them with you at time of drop-off.

Boarding Prices

Please note, you will be charged for the day of drop-off regardless of the time your pet is dropped off. On the day of pickup, if you pick your pet up **before 11:00 AM** you will not be charged for boarding that day. If you pick up **after 11:00 AM**, you will be charged for the last day. If your pet is groomed or in Daycare on their last day, you will only be charged for Grooming/Daycare services, and not for boarding that day. If groomed, we recommend calling the Grooming department to coordinate a pickup time.

If you would like to have your pet groomed during their stay, please schedule an appointment with our grooming department. Their direct phone number is (978) 948-5361.

Food

We offer Hill's Science Diet Sensitive Stomach & Skin Formula as a complimentary dry food. If you wish your pet to receive wet food as well, we have a couple of Hill's brand wet food options available for purchase.

If your pet is on a prescription diet*, eats a brand of food that we do not offer, or has specific dietary requirements, you will need to provide any food your pet may need. We recommend bringing only enough food for your pet's stay, plus a bit extra, in case the stay needs to be extended. As storage space is limited, please either pre-pack meals or bring a container that is under 15 lbs. We do not accept rawhide chews.

**Some prescription diets are available for purchase at Muddy Creek. If your pet is not a Muddy Creek veterinary client, we would require a prescription from your regular vet before you could purchase any of these options. Please call to inquire if you wish to purchase prescription food to ensure that we have it in stock.*

Medications

All of our Pet Care Attendants are trained to administer oral and topical medications. The pet's owner must provide all medications and an administration fee will be applied to any medications (including vitamins/supplements) administered during boarding.

Once-a-day administration

\$5.00 per pet

Two or more times per day administration

\$8.00 per pet

If your pet will be taking medication while he/she is boarding, the medication must be in its original labeled bottle, separate from any food or other medications.

We will need to know the name of all medications, as well as specific instructions on administration. If you give your pet's medication in a food/treat, please bring these as well in a separate container. We do not administer "as needed" medications. You may leave them with us, but your pet would need to be seen by one of our veterinarians before administration.

If your pet's medication is a controlled substance according to the DEA, we are required by law to count the quantity of the medication at both drop-off and at pick up. Pet owners must also count the medication to verify quantity. Pet Care Attendants must count the quantity of medication before and after each administration. We will only accept the amount of medication necessary for your pet's stay plus a few days extra in case the stay needs to be extended.

Subcutaneous Fluid Administration

\$20.00 per administration

Pet owners are required to provide all components, including fluid bags and needles.

Insulin injections

\$8.00 per injection

All of our Pet Care Attendants are trained to administer insulin injections. In order to monitor the food/water intake and bathroom habits, diabetic pets must board separately from any other pets. Pet owners must provide insulin and compatible syringes.

Miscellaneous Information

Bedding

Each boarding department provides bedding for your pet. Each pet may also bring up to three (3) personal belongings for their stay (toys/ bedding/etc.) in addition to any food, treats or medication. We do not accept stuffed dog beds, as we are unable to launder them.

Forms

Pet owners will fill out a Registration Form with feeding, medication, and other instructions on the day of drop-off. If it is your first-time boarding, you will need to sign a Boarding Contract and fill out a Consent to Treat form in case your pet requires medical attention during its stay. We will also record all belongings to make sure you get back everything you brought with your pet.

Emergency Contacts

Pet owners are required to leave a valid emergency contact number (you may leave several if you like). The emergency contact(s) must be over the age of 18, be located within the continental United States, be reachable by telephone for the entirety of your pet's stay, and be authorized to make medical decisions for your pet. We do not accept e-mail addresses or your pet's veterinarian as a form of emergency contact. We also do not have the capability to text via phone. If you plan on leaving the number of a person other than yourself, please advise your emergency contact person that you are giving us their contact information regarding decisions for your pet during their stay.

Flea and Tick Checks

Flea and tick checks are performed on every animal boarding at Muddy Creek. The Cat Tail Inn performs flea checks as part of the check-in process. The Kennel and Little Paws Loft perform them as part of their daily body check routine. If you are dropping off a cat for boarding, please do not remove your cat from its carrier until the Pet Care Attendant has done this check.

If any live fleas or evidence of fleas are found on your pet either at check in or during their stay here, your pet will need to be treated immediately. Every pet with fleas or evidence of fleas will be given both oral and topical flea and tick preventative to kill any live fleas and prevent any new eggs from hatching. Pet owners will be responsible for the cost of these preventatives and will be subject to a Once-a-day Medication Administration Fee (\$5.00).
